The Round Security Wash Basin from Stoddart designed for high security prisons, detention centres and all public amenities where vandalism can be a costly problem.

Fully welded stainless steel construction gives superior strength and hygiene. The radius front edge minimises risk of user injury.

Basins are available with a manual button mounted in the front or side or electronic button mounted in the side or in the splash back.

Features and Benefits:
- Concealed plumbing and fixings provide absolute vandal resistance.
- Secure drain prevents unauthorised access.
- 2.0mm stainless steel provides superior strength and hygiene.
- Front edge is rounded with a smooth radius for user safety.
- Water conserving security bubbler controls water flow for drinking and hand washing.
- Low profile dome bubbler and wedge provides anti-ligature security.
- The manual button options are either positioned on the side of the unit.
- The electronic button option has the button positioned in the side of the unit for easy access. By request, the button can be positioned on the horizontal deck at 3 o’clock position of bowl or located in the splashback together with other piezo buttons for WC flush or other functions as requested.
- The Electronic dispensing button can be interfaced with building water management control systems.
- Front access panel is standard. Rear access option is available for high security prisons. Access panels are fastened with security screw & can be fixed with SS rivets after installation for added security.
- If unit is to be positioned beside a Stoddart Disabled Pan, the basin can be ordered with an optional toilet roll holder in the side of the basin unit.
- The shape of this basin satisfies the free space requirements of AS 1428.1 for design for access and mobility. For enhanced disabled user access, taps are replaced by a single easy touch piezo button that requires just 3-5N of force to activate.

Models:

**SPPL.WB.SR2.WM.x.y.v**

Code explanation:

- **SPPL** = Standard Product Plumbing
- **WB** = Wash basin
- **SR2** = Security round - type 2
- **WM** = Wall mounted
- **x** = E - electronic button
  - MFB - manual front button
  - MSB - manual side button (non-security)
  - MSSB - manual side security basin
  - NB - no button
  - NP - no plumbing
- **y** = FA - front access (standard)
  - RA - rear access
- **v** = VAR - variation
  - T - toilet roll holder (optional)
  - WA - addition of sound suppression material & wedge bar behind bubbler

eg.: for specification and ordering
